

Color the World Green with Super Spacer®

**A shorter shower will cut
down on power**

**Taking a five minute shower will reduce
the amount of energy it takes to heat the water.**

Don't leave the refrigerator door open for too long because energy will escape.

**A new light
can make
the world right**

**Getting rid of old-fashioned light bulbs and replacing them with new
flourescents will help you save energy.**

**Double the glass
so that heat
does not pass...**

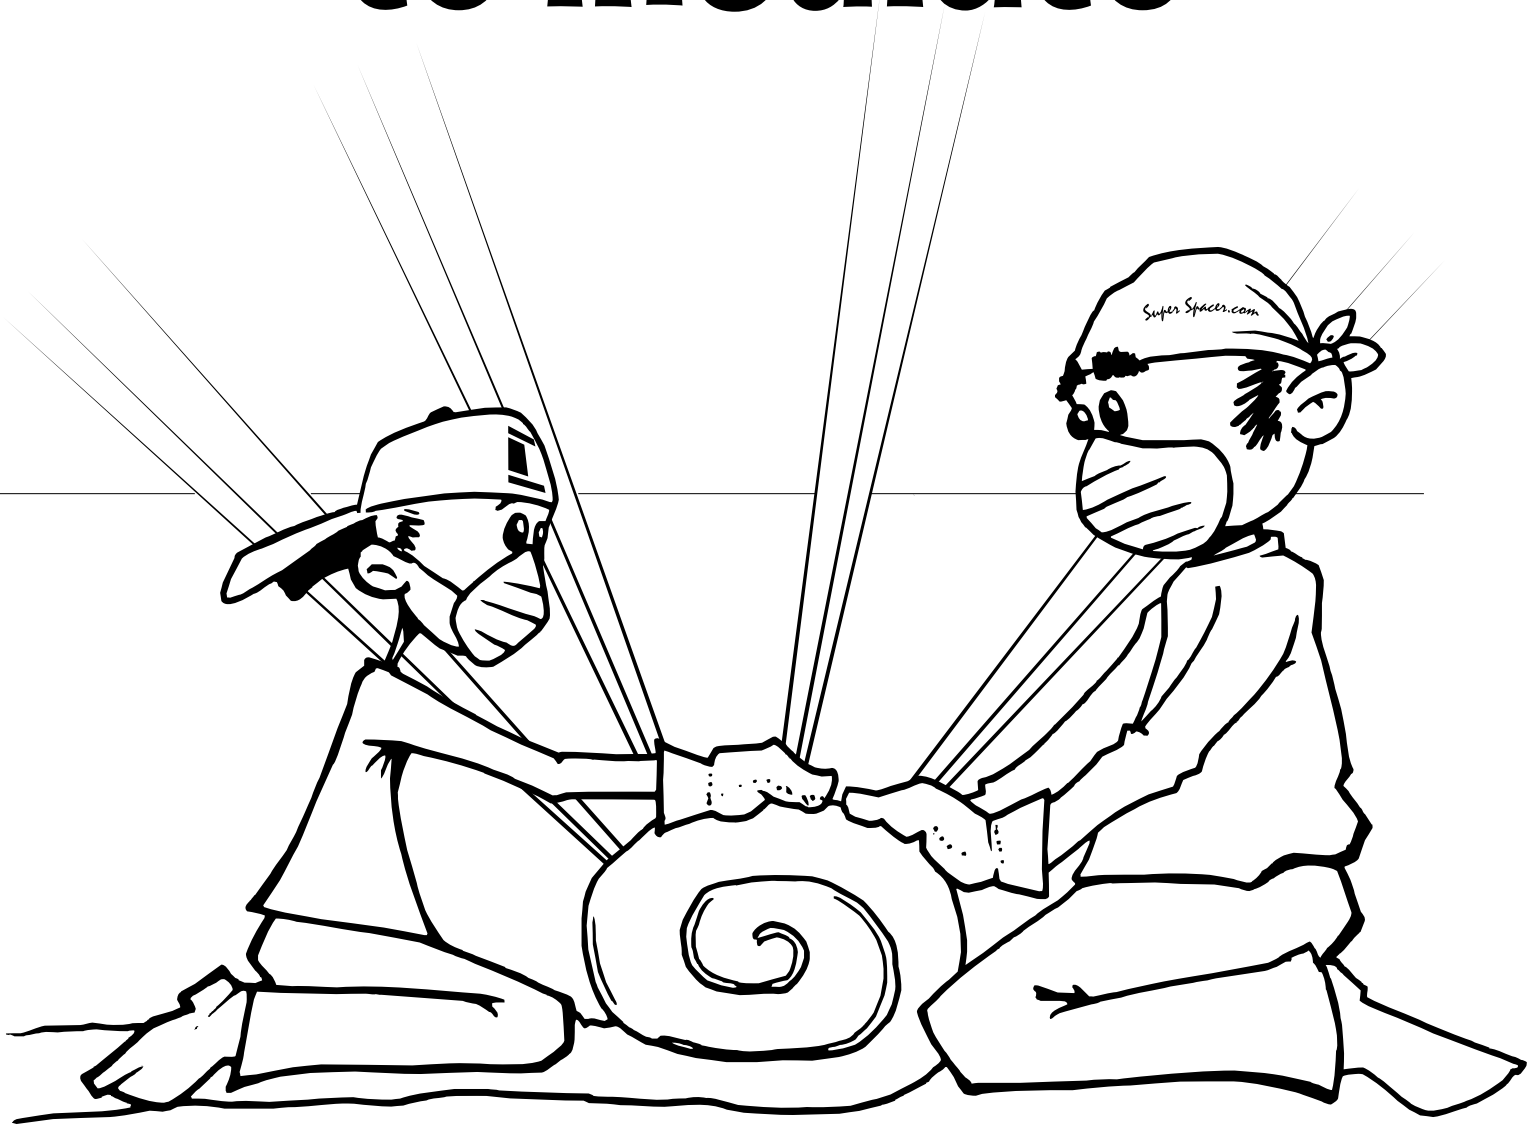

**Replacing your windows
with sealed, double paned
glass containing Super
Spacer® will save your
parents energy and money.**

**Don't leave it on
if you're going
to be gone**

**Turn off your computer
when it's not in use to save energy.**

It's never too late to insulate

**Putting down extra insulation in your attic and using Super Spacer®
in your windows will stop energy from escaping.**

Your money will go far with
ENERGY STAR®

When possible, replace your appliances and windows with ENERGY STAR products for the best energy efficiency.

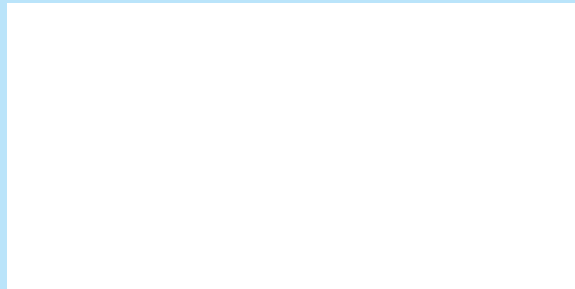

A house is a home when the spacer is foam

**Windows made with
Super Spacer® keep
your house warm
in the winter and
cool in the summer.**
