

*Super Spacer®* Shuttle Guide

**What Shuttle?**

Below is a guide to help determine which shuttle should be used with which Super Spacer product.

Spacers	Shuttles		
	Super Shuttle	Euro Shuttle	TriSeal Shuttle
Premium	X	X	
Premium Plus	X		
Standard	X	X	
Premium "Enhanced"	X		
nXt		X	
TriSeal			X

- For Premium Plus spacer, the Super Shuttle is used, but you need to add the Premium Plus Kit for the taller height.
- **We recommend using the Euro Shuttle with Standard Spacer over the Super Shuttle, to optimize Shuttle maintenance in cutting. Super Shuttle can be used, but expect to change blades more frequently.**
- Use only the Super Shuttle with the Premium "Enhanced" spacer product.
